Report of the Executive Director

Year 2015-2016 is a watershed in the exhibition industry. From 2016 exhibitions will have their own day in the calendar!

In initiation, preparation of the Global Exhibition Day project, as well as earlier initiation and introduction of multinational company category CENTREX has undertaken major role in the heart of exhibition industry. Still and again CENTREX and her members are a kind of engine of the (Central) European exhibition market. Exhibitions themselves have waken from their dream of Sleeping Beauty. In spite of the economic world crisis, different setbacks and even the cyber world the market is strong again. With a lot of diligence, belief, enthusiasm, skills, humility!, understanding and accept the changes, ready to accommodate them, re-concept – they may be behind the secrets.

CENTREX International Exhibition Statistics Union, the non-profit transparency platform of Central European exhibition organizers' since 1997 is proud to present her 18th review of audited exhibition statistics based on jointly implemented international industry standards.

In 2015 the members of the Union, plus their two guests organizers Novi Sad Fair and Murator Expo Warszawa – and under accord with the Polish Chamber of Exhibition Industry all their members have been again able to set the rigorous transparency regulations in motion, supervise the relevant visitor, exhibitor and exhibition space data – those instituting the market values of the trade fairs in the international competition.

Altogether 287 trade fairs have been brought under the process - the figures have been thoroughly analyzed, supervised and audited by our professionals and our allied partners under the same methodology, directives and indicators – to fully comply with demand from our visitor and exhibitor partners, industry associations, public.

EXHIBITION STATISTICS AND AUDITING RULES

VISITORS

Number of visitors is calculated on evidence. Number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Season tickets sold are calculated as reasonable. Visitor number of family tickets are calculated as 4 visitors. Persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available. Number of foreign visitors is established either by tickets sold out at special counters for foreigners, filled in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

NUMBER OF VISITS

The number of visits can be established with evidences of re-visits of the visitors. If no evidence of re-visits occurred one visit per visitor was presumed therefore the number of visits equals to the number of visitors.

SPACE

The contracted space refers only to the area occupied by exhibitors. It corresponds to the number of square meters invoiced and paid for by these exhibitors. Surface areas given under agreements, barter deals are also counted as contracted. Contracted space is divided up in indoors and outdoors rented by exhibitors. Special show space is where performances, shows, lectures, contests, it relates to the theme of the exhibition and it constitutes part of total net exhibition space.

EXHIBITORS

An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the bill from the exhibition organiser and settles it directly. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand and their autonomy can be undoubtedly recognised even without physical separation. The nature of the participation and the identity of each exhibitor at the stand should be undoubtedly clear from the application form sent to the exhibition organiser.

MULTINATIONAL COMPANIES (AS SUBCATEGORY OF DOMESTIC EXHIBITORS AND SPACE !! **NEW!**)

To arrive to a better sophistication of international character of supply at the trade fairs a new category is being initiated: a multinational corporation (MNC) is a corporation or enterprise that manages production or delivers services in more than one country. Information from the exhibitor must come on the application form.
