YOUR EXHIBITIONS IN MOSCOW
Trade Fair Calendar 2016–2017*

Chemical industry
Khimiya / 19–22 September 2016
Interlakokraska / 28 February–3 March 2017
Tires & Rubber / 17–20 April 2017

Fuel and energy
Elektro / 17–20 April 2017
Nettlegaz / 17–20 April 2017

Machinery manufacturing
Lesdrev mash / 24–27 October 2016
Techno forum / 24–27 October 2016
Inlag mash / 20–22 February 2017
Metalloobrobotka / 15–19 May 2017

Construction, architecture, design
Mebel / 21–25 November 2016
Mir Stekla / 5–8 June 2017

Food and food processing industries
Agroprom mash / 10–14 October 2016
Prodexpo / 6–10 February 2017

High technologies, information and telecommunications
Photonics, World of Lasers and Optics / 28 February–3 March 2017
Navitech / 25–28 April 2017
Sviaz / 25–28 April 2017
STL. Systems for Transport & Logistics / 25–28 April 2017

Advertising industry
Reklama / 28–30 September 2016

Fashion industry. Consumer goods
CJF. Autumn / 26–29 September 2016
Mir Detstva / 27–30 September 2016
Consumexpo / 21–25 November 2016
CJF. Spring / 20–23 February 2017

Health care
Zdravoookhraneniya / 5–9 December 2016
Healthy Lifestyle / 5–9 December 2016

*Subject to alteration
All exhibitions are for age 12 and older.
Prodexpo is for age 18 and older.
Dear colleagues,

We are glad to present you the new edition of the “RUEF Exhibition Centres” brochure. It contains information on 26 exhibition and convention venues – members of the Russian Union of Exhibitions and Fairs from 19 cities of Russia and Moldova, with total hall space of over 1 mln sq. m.

This publication provides information which may be useful and interesting to anybody involved in exhibition and congress activity: data on the state of venues, their infrastructure and equipment, information on activities and services provided, and also photographs.

What makes “RUEF Exhibition Centres” unique is that it is the only publication containing systemized information of this kind.

You can as well find socio-economic and travel characteristics of regions where venues are situated and statistical figures of exhibition activity in each city.

I hope that this publication will be a useful source of relevant and reliable information, one of the main incentives for the development of your business.

Sergey Alexeev
UFI President
RUEF President

RUSSIAN UNION OF EXHIBITIONS AND FAIRS (RUEF) is an association of the leading exhibition organizers, venues and trade show related companies from Russia. Representatives from Moldova and Ukraine also join the Union.

Founded in 1991 the Union became a member of UFI, the Global Association of the Exhibition Industry in 1994.

RUEF today represents 91 companies including 26 exhibition and congress venues with total exhibition area of over 1 mln sq. m; some 900 exhibition projects in 46 cities involving 110 thousand participants from 120 countries and 2 mln. sq. m of net exhibition space rented (annually).

Main objectives:
• Contribution to domestic enterprises’ products and services promotion on domestic and foreign markets
• Coordination of exhibition and congress activity in Russia
• Legislative initiatives in the field of exhibition and congress activity
• Exhibition audit
• International relations
• Trainings, seminars
• Database of the Russian exhibition industry
• Publications

MOSCOW

General Information
Moscow is the capital of the Russian Federation and its major political, economic, financial, cultural, religious, educational, and transportation centre.
It is located by the Moskva River in the Central Federal District, in the European part of Russia.

Area – 2.6 thousand sq. km.
Population – 12,197.6 thousand people.

Economic Development
The Region ranks among the leading regions of Russia and the Central Federal District for many social and economic development indexes including gross regional product, industrial output, commercial public services, budget revenues, foreign investment inflow, and retail trade turnover.
In spite of its relatively small part of industry in economics, Moscow is the largest industrial center of Russia. The city is a center of machine-building, (including tool, ship, energetic machine building, ferrous and non-ferrous metallurgy), chemical, light and polygraphic industries.
2014 GRP – 12,808.6 bln. RUB
Foreign trade turnover in the first 9 months of 2015 – 173.2 bln. US dollars
  Export – 115.2 bln. US dollars
  Import – 58.0 bln. US dollars
Investments in fixed assets in 2014 – 1,477.4 bln. RUB

Exhibition Activity
There are 26 exhibition organizers – RUEF members that carry out exhibition activity in Moscow. In 2015, these companies organized 186 exhibitions with total net space of 1,026,520 sq. m. 45,133 exhibitors took part in these exhibitions. There were more than 2 million visitors to the events.

Climate
Moscow has a hemiboreal climate with warm, somewhat humid summers and long, cold winters. Typical high temperatures in the warm months of June, July and August are around 22 °C, in the winter temperatures normally drop to approximately –10 °C.

Transportation
There are three main airports serving Moscow: Sheremetyevo International Airport, Domodedovo International Airport, and Vnukovo International Airport. Moscow employs several train stations to serve the city. All of Moscow’s nine rail terminals (or vokzals) are located close to the city centre, but they each handle trains from different parts of Europe and Asia.

Tourism and Sightseeing
Moscow is one of the biggest cultural and tourist centers of Europe and the world. There are many places of interest in the city – various historical, cultural and architectural sites; as well as entertainment sights. There are more and more hotels in the city. Some of them are world famous hotel brands known for their quality and ambiance.
There are many places of interest in the Moscow area that are unique in the world. Some of these are: the Kremlin, Bolshoi Theater, A.S. Pushkin Fine Arts Museum, and Tretyakov Gallery. Such sights as the Novodevichy monastery and Kolomenskoye estate are UNESCO’s World Heritage. The hyperboloid design of Shukovskaya tower and Ostankino TV tower are unique. The latter was once the highest building in the world.
CROCUS EXPO INTERNATIONAL EXHIBITION CENTRE

Address: P.O.B. 92, 16 Mezhdunarodnaya St., Krasnogorsk, Krasnogorsk Area, Moscow Region, 143402, Russia
Tel.: +7 (495) 727-26-26
E-mail: ask@crocus-off.ru
www.crocus-expo.ru

Opened in: 2004
Hall space: 701,800 sq. m
Open air space: 219,000 sq. m
Number of pavilions: 3
Number of conference rooms: 53
Exhibitions per year: more than 350

Crocus Expo International Exhibition Centre is highly acknowledged by international experts and is listed in the top ten of the most famous fairgrounds worldwide. Its high status is confirmed by many international partners who have chosen Crocus Expo as a platform for their projects holding. Crocus Expo IEC is a full member of UFI in categories of “Exhibition Organizers” and “Exhibition Centres”.

Crocus Expo IEC forms part of a satellite-city of Moscow – Crocus City (90 hectares), founded by Aras Agalarov in 2001 at the crossing of the Moscow City Motor Ring (MKAD) and Volokolamskoye shosse. At present Crocus Expo is one of the largest and most perspective fairgrounds of the world.

Unprecedented exhibit space and engineering facilitation allows holding events of different profile and scale including industrial trade fairs and international salons.

There are various in terms of space and configuration halls in three pavilions of the venue. Partitions between halls can be easily dismantled which allows adjusting expo space to meet any exposition requirements.

Pavilion lobbies, galleries and other indoor and adjacent to the pavilions outdoor spaces can be also rented for various events holding.

The organizers and visitors of events benefit from wide range of services including customs documentation, build up of stands, facilitated with all necessary infrastructures, and catering. A hotel, concert hall, free Wi-Fi zones, shops and entertainment centre, foodcourts and restaurants, taxi service, ATMs and bank departments are available for the fairgrounds visitors.
Major events hosted by the exhibition centre:
Moscow International Automobile Salon
International exhibition of boats and yachts “Moscow Boat Show”
International commercial vehicle auto show “COMTRANS”
International specialized exhibition “Construction Equipment and Technologies/CTT”
International specialized exhibition “Import Substitution”
Russian agricultural exhibition “Golden Autumn”

Exhibition centre layout:

How to get there:
Myakinino metro station: exit doors directly to exhibition pavilions.
By car: intersection of the Moscow City Motor Ring (66 km of MKAD outer side) and Volokolamskoye shosse.
Exhibition of Achievements of National Economy is a national treasure of Russia, the most legendary country exhibition space. Over 24 million of Muscovites and tourists visit the Center annually.

VDNH is a founding member of the Russian Union of Exhibitions and Fairs (RUEF), the Global Association of the Exhibition Industry (UFI), the Chamber of Commerce of the Russian Federation, the Moscow Chamber of Commerce and Trade Industry, Russian Union of Industrialists and Entrepreneurs.

VDNH is a reliable and long-term partner of Russian and foreign companies. Annually, the Exhibition of Achievements of National Economy holds more than 100 exhibitions and congresses, 25,000 of exhibitors and delegates from 70 countries usually participate in these events. VDNH samples traditionally demonstrated achievements of science and culture of Russia and other countries. VDNH is the operator of Russian national exhibitions and Russian expositions at major international exhibitions.

Exhibition halls represent multipurpose rooms, designed for exhibitions, congresses and other events of any level and format. Conference rooms are equipped with modern technical facilities. VDNH provides with a wide range of services – creating and constructing presentation stands at exhibitions, business and regions promotion, decorating and advertising, customs and logistic services, administrative support, warehouse storage and retail service.

Exhibition of Achievements of National Economy venues are regularly used for hosting festivals, concerts, social, sport, cultural and charity events. The exhibition and commercial centers of the CIS countries, which are very important for networking, culture and tourism development, are located at VDNH as well – the Republic of Armenia, the Republic of Belarus. Currently the work on organization of the exhibition and commercial centers of the Republic of Azerbaijan, the Republic of Kazakhstan, the Kyrgyz Republic, the Republic of Moldova and the Republic of Abkhazia is in progress.
Major events hosted by the exhibition centre:
International specialized exhibition of animal industries and breeding business “AgroFarm”
International exhibition “Flowers”
International exhibition of elevators and elevator equipment “Russian Elevator Week”
All-Russian Forum-Exhibition “GOSZAKAZ”
Forum and Technology Show “Open Innovations”
International Forum “ECWATECH”
International Industrial Exhibition “Metal-Expo”
International Forum “IPhEB & CPhI Russia”
International Exhibition “Hunting and Fishing in Russia”
Federal Trade Fair for Textile and Light Industry goods and equipment “TEXTILELEGPROM”

Number of pavilions: 11
Number of conference rooms: 32
Exhibitions per year: approx. 100

Expocentre is a world-known organizer of largest international exhibitions, conventions and conferences in Russia, the CIS and Eastern Europe. Expocentre is member of UFI since 1975, AIPC since 2005, ICCA since 2006, IFES since 2011, EMECA since 2012, IAEE since 2014.

Expocentre:
– exhibition space is 165 thousand sq. m: 105 thousand sq. m indoors, 60 thousand sq. m outdoors
– 11 state-of-the-art exhibition pavilions
– 32 multifunctional halls for conventions, symposia, press conferences and workshops
– convenient location in the centre of Moscow neighboring the Kremlin, House of the Russian Government, majority of ministries and departments, Vystavochnaya and Delovoy Tsentr metro stations, and large hotels.

Every year Expocentre Fairgrounds hosts about 100 international trade shows and more than 600 conventions, symposia and conferences with over 25 thousand exhibitors from over 100 countries participating. The number of visitors annually exceeds 1.3 million people.

Expocentre’s trade shows promote new trademarks, advanced scientific developments and technology to the national market, and provide favourable conditions to establish business contacts, present products and study innovations.

Trade shows of Expocentre are key events which cover all sectors of economy and the social sphere.

Trade shows run by Expocentre cover: machine building, metalworking and technologies; chemistry; oil and gas industry; energy industry; agriculture, food industry; medicine, health care, hygiene; woodworking, furniture industry; consumer goods, goods for children; advertising and design; high technologies, research, innovations.

Expocentre Fairgrounds offers all required facilities and comfortable environment for effective business communication. Exhibitors and visitors can use a variety of online services.

Sokolniki Exhibition and Convention Centre is a world class venue for business and recreation. The centre’s infrastructure meets top international quality standards which are confirmed by a certificate of UFI – the Global Association of the Exhibition Industry, membership in the International Association of Congress Centres (AIPC) and in the Russian Union of Exhibitions and Fairs. Famous Russian and foreign companies, as well as government authorities and industry organizations are among the centre’s clients and partners.

Sokolniki Exhibition and Convention Centre is a modern prestigious venue located in Moscow’s largest park within a walking distance from the homonymous metro station, city centre, and the city’s main traffic arteries while at the same time having the attractions of a country venue with a unique green environment. During the period between 2012 and 2014 Sokolniki Exhibition and Convention Centre has undergone a large scale reformation, resulting with the facility ranking together with the leading Russian and European business centres.

All clients of Sokolniki Exhibition and Convention Centre are offered a default set of amenities: broadband Internet connection, new good-quality furniture, equipped registration areas, reception areas and security services. At that, the main principle of operation for the management team of ECC “Sokolniki” is the price affordability combined with a high level of service.

Sokolniki Exhibition and Convention Centre is well-suited for both large-scale corporate events and exhibitions, and for smaller and private events. For that, we possess a complete set of necessary factors and instruments:

- Spacious pavilions and halls, highly flexible and suitable for decoration and transformation;

- Perfect conditions for event agencies, catering, sound and concert companies: all the necessary technical connections traceable to any spot according to the client’s wish;

- Ample admission capacities: spacious guarded parking lot (up to 2,000 lots), convenient location in the park near a metro station and main road arteries.
Major events hosted by the exhibition centre:
Euro Shoes
Analitika Expo
Cabex
RGW
Craft Formula
Equiros
NAMM Musikmesse Russia
Archimedes
WANEXPO
Prolight

WORLD TRADE CENTER

World Trade Center takes pride in being regarded as the foremost multi-functional business center in Russia. WTC key mission is to provide the support for the business community activities and its integration into the global trade.

WTC is located downtown Moscow, on the embankment of the Moskva River within walking distance from three metro stations, Krasnaya Presnya Park and Expocentre exhibition complex.

The WTC Congress Center is a high-tech venue that meets all the standards of meeting industry and offers unlimited opportunities for events of various formats: conventions and conferences, seminars and symposia, business meetings, special events, banquets and wedding receptions. A friendly and experienced team of specialists dedicated to organizing events on a turnkey basis will ensure perfect coordination and success for the meetings of any scale.

The WTC Congress Center offers 30 conference halls and rooms, including a multi-functional transformable Congress Hall seating up to 1,500. The delegates are comfortably accommodated in the Crowne Plaza Moscow WTC hotel, as integral part of WTC, and are assured of high quality catering provided by restaurants and bars of the Center.

The unique infrastructure of World Trade Center offers a wide range of services including rental of meeting rooms, business center services, air and railway ticket offices, notary public, postal service, insurance, beauty salons and a fitness center. The WTC shopping gallery houses a wide variety of shops and boutiques. A multi-level underground parking with a total capacity of 1,150 cars and an outdoor parking for 683 cars are available for the guests.

WTC is a member of the World Trade Centers Association (WTCA), International Congress and Convention Association (ICCA), Association Internationale de Palais de Congrès (AIPC) and the Russian Union of Exhibitions and Fairs, and is an accredited partner of the Moscow Convention and Exhibition Bureau.

The WTC Congress Center is highly valued by Russian and foreign professional associations. Since 2015, the Congress Center is a certified qualified member of AIPC. It was acknowledged the winner in the nomination “The Best Congress Center of Russia”, and in 2010 and 2011 was recognized the Best Congress Center of Moscow and granted the prestigious professional Russian Business Travel & MICE Award.
Major events hosted by the exhibition centre:
Annual news conference of the President of Russia Vladimir Putin
“RUSSIA CALLING!” Investment Forum
World Congress of Russian Press
The First Russian Internet Economy Forum
The Fifth World Congress of Compatriots Living Abroad
The 66th General Assembly of the World Medical Association
The Sixth Conference of the Parties to the WHO Framework Convention on Tobacco Control
The 3rd International Parliamentary Forum “New dimensions of parliamentary dialogue in the modern world”
International Conference on Emerging Infectious Diseases
The 15th General Assembly of the Organization of Asian-Pacific News Agencies

SAINT PETERSBURG

General Information
Saint Petersburg is a federal city of Russia, capital of the Northwestern Federal District. It is a major industry, culture, research, and tourism center with a diversified economy structure. It is located on the Neva River at the head of the Gulf of Finland on the Baltic Sea.

Area – 1.4 thousand sq. km
Population – 5,191.7 thousand people

Economic Development
The advantages of the city are its favorable geographical location, developed transport infrastructure (roads, railroads, sea transport, air transport), and efficient investment policy of the municipal authorities. The city has a great intellectual, scientific and personnel potential which contributes to a comfortable atmosphere for business development.

Primary industries in Saint Petersburg are engineering, energy industry, chemical and petrochemical industry, forestry and woodworking industry, food industry, railway, marine, river, automobile, air transport. 2014 GRP – 2,652.1 bln. RUB
Foreign trade turnover in the first 9 months of 2015 – 25.9 bln. US dollars
  Export – 11.1 bln. US dollars
  Import – 14.8 bln. US dollars
Investments in fixed assets in 2014 – 502.6 bln. RUB

Exhibition Activity
There are 8 exhibition organizers – RUEF members that carry out exhibition activity in St. Petersburg. In 2015, these companies organized 130 exhibitions with total net space of 166,049 sq. m. 13,044 exhibitors took part in these exhibitions. There were more than 1.1 million visitors to the events.

Climate
Saint Petersburg experiences a humid continental climate of the cool summer subtype. The average daily temperature in July is 23 °C and the average winter minimum is about –9°C.

Transportation
Saint Petersburg is the most important center between Scandinavia and Europe, central parts of Russia and Baltic states. In the southern part of the city the airport “Pulkovo” is situated. There are 5 train stations in St. Petersburg.

Tourism and Sightseeing
Saint Petersburg has significant historical and cultural heritage and is thus considered a highly attractive tourist destination. Saint Petersburg is inscribed on the UNESCO World Heritage list as an area with 36 historical architectural complexes and around 4000 outstanding individual monuments of architecture, history and culture. The city has 221 museums, 2000 libraries, more than 80 theaters, 100 concert organizations, 45 galleries and exhibition halls, 60 cinemas and around 80 other cultural establishments. The city has more than 260 large and small hotels with total number of 27,000 rooms. With the introduction of a new passenger port in the west of Vasilevsky Island and the abolition of the visa regime for short-term visits of tourists, St. Petersburg became one of the centers of cruise tourism in Europe.
EURASIA CULTURAL AND EXHIBITION CENTER (SIVEL, JSC)

www.sivel.spb.ru

Opened in: 2000

Hall space: 2,100 sq. m
Open air space: 800 sq. m
Number of pavilions: 3
Number of conference rooms: 1
Events per year: 50

Congress and Exhibition Association “SIVEL” - Exhibition Company of St. Petersburg, providing full range of services in the field of exhibition and congress activity. Association was created in 1993. Main objective of the company – assistance to development of small business entities through participation in trade fairs. “SIVEL” holds trade fairs for the population in the Cultural and exhibition center “EURASIA” in seven thematic directions: food, health and hygiene, national and art crafts, gardening and landscape, Orthodoxy, consumer goods, culture and art. Also, “SIVEL” is the organizer of a number of the social projects focused on the senior generation and physically disabled people.

“SIVEL” is one of the leading companies of St. Petersburg in the field of design and construction of exhibition stands. The company has a complex of building constructions, the exhibition equipment and base for design and construction of exhibition modules on standard and individual projects, both for own actions, and by special orders. Every year “SIVEL” builds up over 150 individual exhibition stands at the Congress and exhibition events of St. Petersburg and Moscow.

The Cultural and exhibition center “EURASIA” has been the basic exhibition platform of “SIVEL” since 2000. The building is a monument of architecture of an era of the Soviet constructivism. The Cultural and exhibition center “EURASIA” is located in the northeast of St. Petersburg, is in close proximity to “Lesnaya” metro station, there is a developed transport infrastructure. For these years the Cultural and exhibition center “EURASIA” became an attractive object for residents of four northern districts of the city. Each year the Cultural and exhibition center “EURASIA” is visited by over 400,000 people.
Major events hosted by the exhibition centre:
Interregional Specialized Exhibition-Fair “Souvenirs. Gifts. Decoration”
Interregional Forum-Exhibition “Ecologic Safety”
International Forum “Food Safety”
Saint Petersburg

The new, modern ExpoForum Convention and Exhibition Centre opened its doors in St. Petersburg in October 2014. The new complex, which meets the highest European standards, covers an area of more than 56 hectares and is located close to Pulkovo International Airport. The venue is furnished with all the facilities required to host absolutely any type of event, from exhibitions and conventions to sport competitions, concerts, shows and film festivals.

Each pavilion has an exhibition area of 13,000 sq. m, with duct spacing (including electricity, low-voltage current, water and sewage systems) measuring 3 metres. The use of pillar-free construction technology enables the optimal use of space inside the venue, while the reinforced floor allows industrial equipment and other heavyweight machinery to be exhibited.

The venue also includes a convention centre with a capacity of up to 10,000 guests, with a main hall seating 4,000, a hall for gala events seating 2,000, a business centre, a customs terminal, cafes, restaurants and parking facilities. In addition Hilton Saint Petersburg ExpoForum and Hampton by Hilton Saint Petersburg ExpoForum, will offer a total of 441 hotel suites for guest accommodation.

From the word go, the Convention and Exhibition Centre offers a full range of associated services, including exhibition set-up, catering, transport and tourism services. A shuttle-bus service is provided in order to transport visitors from nearby metro stations to the site in just 15 minutes.
The first key events to take place at the new venue:
International Exhibition “Energetika and Elektrotechnika”
St. Petersburg International Gas Forum
Russian Industrialist
International Exhibition “Svarka / Welding”
International Exhibition “Zoosphere”
International Exhibition “Hipposphere”
Exhibition “Corrosion Protection”
International Conference “Real Estate Management in Corporations/REMIC”
Nevsky Radiological Forum
V International Forum “Arctic: Today and The Future”

Opened in: 1995

Hall space: 3,100 sq. m
Open air space: 4,000 sq. m
Number of pavilions: 1
Number of conference rooms: 3
Events per year: 33

BELEXPOCENTER, a department of the Belgorod Region Chamber of Commerce and Industry, is the only regional specialized exhibition and congress complex in the Central Federal District.

BELEXPOCENTER has been engaged in organizing and conducting exhibitions and fairs since 1995. On the whole, the BELEXPOCENTER staff has held over 500 fairs with more than 53,000 participants from Russia, CIS countries and from abroad. Fairs organized and held by BELEXPOCENTER have been attended by over 250,000 people annually.

The fairs and other events are organized and held by a qualified staff.

Fairs held by BELEXPOCENTER are traditionally coupled with other business events: regional meetings, conferences, round-table discussions, master classes, seminars, as well as fashion shows and contests of tailors, make-up artists, hair stylists. Each year BELEXPOCENTER supported by professional unions and associations hosts restaurant review-contests and the Advertisement and Design Festival.

BELEXPOCENTER is located in the center and can be conveniently reached from any part of the city. The center’s technical capabilities meet relevant international standards and enable a wide range of quality services for business events, such as

- exhibition-related services;
- organizing congress events;
- catering services;
- information support;
- the places for rent for holding exhibitions, conferences, symposiums, meetings, presentations, training sessions, contests, business meetings and cultural and sports events.
Major events hosted by the exhibition centre:
BelExpoStroy
Energy Saving and Electrical Engineering. Public Utilities
Modern City
BelgorodAgro
Medicine. Pharmacy. Dentistry. Health and Beauty
Belgorod

EKATERINBURG

General Information
Ekaterinburg is a major city in the central part of Russia, the administrative center of Sverdlovsk Region, major industrial, cultural, scientific and educational center of the Ural region.

Region’s area – 194.3 thousand sq. km
Region’s population – 4,327.4 thousand people

Economic Development
Ekaterinburg is one of the largest financial and business centers in Russia; offices of transnational corporations are located here as well as representations of foreign companies, a great number of federal and regional financial institutions.

Key industries: ferrous and non-ferrous metals, machine engineering and metal processing, energy.
2014 GRP – 1,661.4 bln. RUB
Foreign trade turnover in the first 9 months of 2015 – 7.3 bln. US dollars
   Export – 5.2 bln. US dollars
   Import – 2.1 bln. US dollars
Investments in fixed assets in 2014 – 370.4 bln. RUB

Exhibition Activity
There are 3 exhibition organizers – RUEF members that carry out exhibition activity in Ekaterinburg. In 2015, these companies organized 6 exhibitions with total net space of 5,806 sq. m. 419 exhibitors took part in these exhibitions. There were more than 45 thousand visitors to the events.

Climate
The climate in Ekaterinburg is temperate continental, with a characteristic rapid change of weather conditions, well-defined seasons of the year. Average January temperature is –16°C, while the average July temperature is +18°C.

Transportation
Ekaterinburg is one of the country’s largest transport and logistics hubs (international airport Koltsovo, Trans-Siberian Railway, 6 federal highways). The International airport Koltsovo is the 5th airport in Russia in terms of passenger traffic.

Tourism and Sightseeing
Ekaterinburg was founded as a factory fortress on the River Iset in 1723.
Ekaterinburg is one of the largest cultural centers in Russia, the cultural space that brings together many diverse cultural and art institutions.
There are many buildings with the architecture of end of 18–19 centuries and many buildings of the Soviet period, which are vivid examples of constructivism and other styles of that period.
The city has more than 50 different museums, which introduce visitors not only to the city’s history, but also to various aspects of its development, as well as famous personalities.
At present, Ekaterinburg is one of the leading theatrical centers in Russia, 24 theaters operate in the city, most of them are popular not only in Russia but also abroad.
Residents and visitors can also visit the Philharmonic Society, concert halls and dance floors, entertainment and recreation parks, the zoo, the circus. There are many parks and public gardens in the city.
International exhibition center Ekaterinburg-EXPO was built in 2011 under the patronage of the Sverdlovsk Region Government. Now IEC Ekaterinburg-EXPO is one of the largest and modern exhibition centers in Russia.

Exhibition center with total exhibition area of 59,600 sq.m is a unique venue for various projects – exhibitions, forums, fashion shows, concerts, sporting and corporate events. Nowadays IEC Ekaterinburg-EXPO includes 4 pavilions (3 exhibition pavilions and 1 congress hall) and entrance with two storey gallery.

Competitive advantages of IEC Ekaterinburg-EXPO:
- The unique architectural solutions: IEC Ekaterinburg-EXPO was designed by the world famous architect – Jose Asebio Marin
- Unsupported dome constructions are adopted for largest stands
- Full range of services for event organizers and exhibitors
- Convenient geographical position - in 5 minutes drive from the international airport and in 20 minutes drive from the center of the city
- IEC Ekaterinburg-EXPO is nearby located from main hotels, restaurants and entertainment centers

For the last 4 years IEC Ekaterinburg-EXPO has been a platform for 450 different events.

Large exhibitions and business events are held here, such as the International Industry Fair “INNOPROM”, I Development Institutions Forum, International Professional Exhibition “BEAUTY MEDICINE” and others.

The exhibition center provides a full organizational service: exhibition space renting, standard and exclusive construction of the exhibition space, audio-video and presentation equipment renting, advertising services, transport, catering, etc.
Major events hosted by the exhibition centre:
- International Industrial Trade Fair “INNOPROM”
- International Building and Interiors Exhibition “Build Ural”
- Forum “Russia and Azerbaijan interregional dialogue”
- International Tourist Exhibition “Summer – 2015”
- II Championship of working professions in high-tech industries “WORLDSKILLS Hi-Tech”
- International Forum on high-rise and unique building “100+ Forum Russia”
- European Table Tennis Championship 2015
- The mass race “Ski Track of Russia – 2015”
- Festival of power sports, multiturnir “GOLDEN TIGER – IX”
- The annual graduation ceremony of students of the Ural Federal University named after the first President of Russia B.N.Yeltsin

IRKUTSK

General Information
Irkutsk is one of the largest cities in Siberia and the administrative center of Irkutsk Region. Baikal Lake is located near the city (about 70 km).

Region’s area – 774.8 thousand sq. km
Region’s population – 2,414.9 thousand people

Economic Development
Irkutsk Region has a highly developed industry and possesses a considerable share of Russia’s natural resources which defines the key branches of the Region.

Key industries: non-ferrous metals, forestry, machine engineering, energy.
2014 GRP – 907.4 bln. RUB
Foreign trade turnover in the first 9 months of 2015 – 5.8 bln. US dollars
  Export – 4.8 bln. US dollars
  Import – 1.0 bln. US dollars
Investments in fixed assets in 2014 – 192.5 bln. RUB

Exhibition Activity
There is 1 exhibition organizer – RUEF member with a permanent seat in Irkutsk that carries out exhibition activity in the city. In 2015, this company organized 24 exhibitions with total net space of 17,231 sq. m. 1,778 exhibitors took part in these exhibitions. There were almost 223 thousand visitors to the events.

Climate
The region’s great extent and rugged relief are the reasons for the varied climatic conditions. Winters are cold (January temperatures range from –17 °C to –33 °C); summers are hot and dry in the first half (July temperatures range from +17 °C to +33 °C) and rainy in the second half.

Transportation
The city is an important transportation junction of the region. Trans-Siberian Railway and federal highway to Vladivostok are going through the city. There are two airports in the city: Irkutsk International Airport and Irkutsk Northwest Airport.

Tourism and Sightseeing
Irkutsk region has a rich history, that’s why there are historical monuments in every settlement here. Besides, unique phenomena are located in the region: first of all, it is the lake Baikal and Baikal National Park.

One of the most unusual museums of the Irkutsk Region – is a complex museum the Krugobaikalskaya railway. A large engineering complex was founded in the years 1902 – 1905 on the bank of the Baikal Lake in the area 100 km long. It consists of 58 tunnels and galleries, over 500 bridges and viaducts, about 600 retaining bank protection walls which supplement 172 monuments of architecture.

Irkutsk is considered to be one of the most beautiful cities of Siberia. Ancient buildings remained in the center of the city: merchant Sibiryakov’s house with a monument to Alexander III opposite to it, governor general residence, Trapeznikov’s house and other ancient buildings. Other survived buildings are: Spasskaya church, Bogoyavlenksy Cathedral, Krestovozdvizhenskaya church, Polish church, synagogue and Tatar mosque.

The Regional museum opened in Irkutsk in 1782 is still functional. It includes an exposition revealing the city history from the earliest times: ethnographic, geologic and historic collection.

Irkutsk features opportunities for ski mountaineering.
SIBEXPOCENTRE, OJSC

Address: 253a Baikalskaya St., Irkutsk, 664050, Russia
Tel.: +7 (3952) 35-29-00
Fax: +7 (3952) 35-22-39
E-mail: info@sibexpo.ru
www.sibexpo.ru

Opened in: 1996
Hall space: 4,500 sq. m
Open air space: 3,400 sq. m
Number of pavilions: 3
Number of conference rooms: varies
Exhibitions per year: 40

Sibexpocentre Irkutsk Exhibition Complex is a leading exhibition company of Eastern Siberia. Sibexpocentre specializes in exhibitions and congress events holding for more than 25 years. The company has been a member of the Russian Union of Exhibitions and Fairs since 1992.

Exhibition Complex consists of three pavilions with a total area of 4,500 sq. m and an outdoor exhibition area with the size of 3,400 sq. m.

Every year, Sibexpocentre OJSC carries out more than 40 exhibitions and fairs. Themes of the exhibitions reflect almost all economic sectors of Irkutsk Region. Regular exhibitors come to Irkutsk from Russian regions and abroad. For one exhibition year, Sibexpocentre hosts more than 400 thousand visitors, over 3,000 exhibitors from different regions of Russia and over 20 foreign countries present their companies here.

Sibexpocentre is a perfect place for carrying out business events. Exhibition space can be easily transformed into conference halls for several hundreds of seats, concert halls and podiums. The complex has modern types of demonstration, communication equipment and communication facilities.

Sibexpocentre successfully cooperates with various international exhibition companies, representative offices of foreign official institutions in Russia, such as consulates and chambers of commerce and industry of China, Korea, Mongolia, Japan, Poland, subdivisions of different unions and associations, has experience in holding of national exhibitions presenting expositions of different regions and countries.

Team of Sibexpocentre can not only prepare and carry out events, but also solve many organizational issues, related to reservation of hotel rooms, transfers, arrangement of advertising campaigns and excursions programmes for participants. All of this turns the exhibition centre into not only the largest presentation platform, but also the biggest business centre of Eastern Siberia.

Popularity of Sibexpocentre is explained by its proximity to Lake Baikal – only 63 km separate guests of the city from the world gem. No trip to Irkutsk is complete without a visit to the picturesque lake.

KALININGRAD

General Information
Kaliningrad Region is the Russia’s most extreme western exclave region, borders Poland and Lithuania, and is geographically separated from the rest of Russia.

Region’s area – 15.1 thousand sq. km
Region’s population – 969.0 thousand people

Economic Development
Kaliningrad Region is a dynamically developing region. Its economy benefits from its mineral resources wealth, unique geopolitical location, proximity to sea and European countries as well as developed tourist infrastructure.

Key industries: food, machine engineering and metal processing, fuel, timber, pulp and paper, power.
2014 GRP – 306.2 bln. RUB
Foreign trade turnover in the first 9 months of 2015 – 8.5 bln. US dollars
  Export – 2.4 bln. US dollars
  Import – 6.1 bln. US dollars
Investments in fixed assets in 2014 – 58.5 bln. RUB

Exhibition Activity
There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Kaliningrad. In 2015, this company organized 17 exhibitions with total net space of 8,574 sq. m. 1,138 exhibitors took part in these exhibitions. There were more than 77 thousand visitors to the events.

Climate
The climate is transitional from temperate continental to maritime. The average annual temperature ranges from +6.2 to +7.6 °C with an average July temperature of +17 °C and an average January temperature of +3 °C.

Transportation
Borderless travel to the main part of Russia is only possible by sea or air. All kinds of transport are well-developed. Kaliningrad has railway connections with Russian cities, Poland and Berlin in Germany. There is an airport in Khrabrovo.

Tourism and Sightseeing
Kaliningrad (formerly known as Königsberg) has historical significance as both a major city of Prussia and the capital of the former German province East Prussia, partitioned after World War II between the USSR and Poland, and renamed after Mikhail Kalinin.
Kaliningrad Oblast is worth visiting for its old country-side Prussian castle ruins, as well as for its sunny beaches, the highest sand dunes in Europe, thick pine forests and the world’s largest amber deposits. Kaliningrad Oblast is informally called Yantarny kray (meaning amber region).
Kaliningrad has its own distinctive appearance: parks and squares occupy a third of the city’s territory, and typical Western European architecture gives way to styles common to modern cities.
Kaliningrad has many museums. A few examples are the Immanuel Kant museum the Regional Museum of History and Arts, and the Kaliningrad Amber Museum. The city also has an art gallery with eight exhibition rooms.
There are several theatres. Musical life of the city is rich and diverse. Music festivals of various styles are held annually.

KAZAN

General Information
Kazan is the capital of the Republic of Tatarstan. The Republic is located in the center of the East European Plain. It lies between the Volga River and the Kama River (a tributary of the Volga).

Region’s area – 67.8 thousand sq. km
Region’s population – 3,855.0 thousand people

Economic Development
Tatarstan is one of the most economically developed regions of Russia. The Republic is highly industrialized. The main source of the Republic’s wealth is oil.

Key industries: fuel, machine engineering and metal processing, automotive, chemicals and petrochemicals.
2014 GRP – 1,671.4 bln. RUB
Foreign trade turnover (9 months of 2015) – 10.4 bln. US dollars
   Export – 8.7 bln. US dollars
   Import – 1.7 bln. US dollars
Investments in fixed assets in 2014 – 542.8 bln. RUB

Exhibition Activity
There are 2 exhibition organizers – RUEF members that carry out exhibition activity in Kazan. In 2015, these companies organized 39 exhibitions with total net space of 98,920 sq. m. 3,166 exhibitors took part in these exhibitions. There were almost 214 thousand visitors to the events.

Climate
Moderate continental climate. Average January temperature: −16 °C; average July temperature: 19 °C.

Transportation
International airport “Kazan” is located 28 km to the south of the city. The railway station is located in the central part of Kazan.

Tourism and Sightseeing
Today Kazan is the center of Tatar people culture. Kazan has been undergoing a total renovation since 2000. The metro was opened in 2005. The city celebrated its millennium in 2005 when one of the largest mosques in Russia (Qolsharif) was built inside Kazan Kremlin walls. Also Millennium Bridge was opened in 2005.

Kazan Kremlin is among UNESCO world heritage and a 1000 year history of Kazan makes it one of the Russian cities most often visited by tourists.

There are two museums of republican significance, as well as 90 museums of local importance. In the past several years new museums appeared throughout the Republic. There are 12 theatrical institutions in Tatarstan.

Kazan offers a lot of various events you can visit during your stay here – international opera and ballet festival, different types of music festivals, popular singers’ concerts and many other interesting things to do. The 27th World Summer Universiade was a global student-youth sports event held in Kazan in 2013.

Besides events, from the river station you can take boat trips on the Volga.
Kazanskaya Yarmarka is a fast developing exhibition company with high positions on the Russian market.

Kazanskaya Yarmarka JSC – is the only exhibition venue of the Republic of Tatarstan with an opportunity for displaying exhibits at the grounds of more than 20,000 sq. m. The Exhibition Center is featured by pavilions with total capacity of 6,700 sq. m, Main Pavilion with conference-halls and hall for VIP-receptions, modern Congress-Center.

The Exhibition Center organizes over 50 trade shows and guest activities and more than 300 congress events annually, covering all economy sectors visually and creating best conditions for development and promotion of the home producers on the Russian and world markets. Annually more than 7,000 companies from Russia and 37 countries participate in the exhibitions. Visitor attendance makes at average over 300 thousand professionals.

The performance of Kazanskaya Yarmarka JSC is marked by major exhibition organizations – the Russian Union of Exhibitions and Fairs (RUEF) and the Global Association of the Exhibition Industry (UFI). The Exhibition Center also has a mark of meeting international quality standards in the sphere of organizing and hosting exhibitions and fairs, congress events in terms of the exhibitions as well as non-exhibition projects – ISO-9001-2008. Since 2012 Kazanskaya Yarmarka JSC has been a member of the Russian-German Chamber of Commerce (AHK), since 2013 – member of the International Congress and Convention Association (ICCA), since 2014 – member of the Association of the European Business.

Core goals: organization of exhibitions and events; design and construction of stands; organization of expositions of the Republic of Tatarstan in Russia and abroad; participation in development of social and economic infrastructure of the Republic of Tatarstan.

While organizing events, the Exhibition Center is supported by the Cabinet of the Ministers of the Republic of Tatarstan, trade ministries and departments, government bodies of the Privolzhsky Federal District, Russian and international companies as well as federal and international organizations.
Major events hosted by the exhibition centre:
Volgastroyexpo
Energy. Resource-Saving
Tatarstan Oil, Gas and Petrochemicals Forum
Mechanical Engineering. Metalworking
International Field Days in Volga Region

KHANTY-MANSIYSK

General Information
Central City of Khanty – Mansi Autonomous Area – Yugra. Khanty-Mansi Region is located in the middle of Russia and occupies the central part of West-Siberian plain.

Region’s area – 534.8 thousand sq. km
Region’s population – 1,612.1 thousand people

Economic Development
The Khanty-Mansiysk Autonomous Area is Russia’s main producer of oil and gas, one of the world’s largest. It is also one of Russia’s donor regions and a leader in industrial output. The region’s economy is based on its natural resources’ wealth.

Key industries: fuel and energy.
2014 GRP – 2,826.1 bln. RUB
Foreign trade turnover (9 months of 2015) – 10.8 bln. US dollars
   Export – 10.1 bln. US dollars
   Import – 0.7 bln. US dollars
Investments in fixed assets in 2014 – 709.4 bln. RUB

Exhibition Activity
There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Khanty-Mansiysk. In 2015, this company organized 10 exhibitions with total net space of 5,108 sq. m. 707 exhibitors took part in these exhibitions. There were almost 36 thousand visitors to the events.

Climate
The area has a severe continental climate with average January temperatures of –18 to –24 °C and average July temperatures of +15.7 to +18.4 °C.

Transportation
The area has 1,073 km of railway lines, more than 14,000 km of roads, nearly 5,000 km of navigable waterways. It is served by Khanty-Mansiysk Airport.

Tourism and Sightseeing
In Khanty-Mansiysk there is the only one in Russia and in the world Park of Slavic literature and culture; natural park “Samarovsky Chugas”; 5 state museums; concert and theater center; 3 theaters; centre of culture and crafts; etc.
One of the Khanty-Mansiysk sights is “Archeopark” located at the foot of Samarovsky outlier. Khanty-Mansiysk is known as center of skiing and mountain skiing. World Cups in biathlon take place here, that’s why tourism is well-developed in the city. The city hosted several World Cups in biathlon. Besides, in 2010, World Chess Olympics was held here.
At the present time the organizer of congress and exhibition arrangements in Yugra Expo exhibition complex is the District exhibition center Ugra Contracts - the largest exhibition operator in the district with an extensive experience of professional activity in this industry.

Today Khanty-Mansi Autonomous Okrug – Ugra is one of the most dynamically developing regions of the Russian Federation, possessing the largest fuel and energy complex in the country. Construction, agro-industrial, timber industry complexes, transport infrastructure, communication, IT technologies, small and medium enterprise develop intensively in the district.

The congress and exhibition center Yugra Expo is the only specialized center in Yugra that enables to hold any large-scale events professionally: specialized exhibitions, business congresses, cultural and entertaining activities, conferences, seminars, round tables, business meetings of the international, all-Russian and regional level.

The specialized platform is fitted out with modern exhibition and presentation equipment and materials which are widely applied in international exhibition practice. A modern showroom fitted out with the advanced exhibition and presentation equipment, conference rooms equipped with systems of sound amplification, connection and high-speed Internet access, interactive presentation system, video projectors, etc. are at the exhibitors’ disposal.

At the exhibitors’ disposal:
- Exhibition and exposition hall with a total area of 4,238 sq. m
- Two conference halls sitting 130 and 40 with a fixed chairs arrangement for holding conferences, plenary sessions
- Business center equipped with office furniture, phones, computers and office accessories
- Room for holding corporate meetings, seminars, negotiations
- Foyer for registration and rest of event attendees
- Office rooms for the personnel
- Warehouse for storage of the exhibition equipment
- Restaurant, cafe, bar
- Open exhibition area for demonstration of heavy-load and special equipment
- Individual two-storeyed stands
Major events hosted by the exhibition centre:
“Surgut. Oil and Gas” International Specialized Exhibition
“Energy Conservation. Energy Development Vector” Specialized Exhibition
“Goods of the Earth Ugra” Exhibition Fair
“UgraTur” Specialized Exhibition
“Information Technologies” Exhibition and Forum

General Information
Krasnodar is a city and the administrative center of Krasnodar Territory, located on the Kuban River about 148 kilometers northeast of the Black Sea port of Novorossiysk.

Region’s area – 75.5 thousand sq. km
Region’s population – 5,453.3 thousand people

Economic Development
The Territory’s economic development is focused on its agro-industrial, fuel and energy, transport, resort-and-recreation, engineering, forestry, woodworking, furniture and construction-materials sectors. However the Territory’s economy is heavily agricultural. And around agricultural production food industry has developed.

Key industries: food and beverages, energy, fuel, machine engineering and metal processing, construction materials.
2014 GRP – 1,792.0 bln. RUB
Foreign trade turnover (9 months of 2015) – 7.7 bln. US dollars
   Export – 4.8 bln. US dollars
   Import – 2.9 bln. US dollars
Investments in fixed assets in 2014 – 693.2 bln. RUB

Exhibition Activity
There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Krasnodar. In 2015, this company organized 18 exhibitions with total net space of 63,026 sq. m. 2,342 exhibitors took part in these exhibitions. There were almost 140 thousand visitors to the events.

Climate
The climate varies from temperate continental to subtropical. Average January temperatures range from –8°C in the mountains and –4°C on the plains to +5°C on the seacoast; average July temperatures vary from +13°C in the mountains to +23°C on the plains and coast.

Transportation
Krasnodar is an important transportation and transit juncture in the south of Russia. The federal highway M4 “Don” crosses the city. There is an international airport Pashkovsky located in the eastern part of Krasnodar city. In the southern part of the city there is a freight river port on the river Kuban.

Tourism and Sightseeing
Krasnodar Territory has the most fortunate climate conditions in Russia. The territory of Krasnodar Territory is a nature conservation zone distinguished by diverse plant and animal life. Krasnodar Territory also contains Russia’s largest tourist industry by some measure, catering principally to domestic tourists. The region contains a full 25% of all Russia’s registered hotels and resorts.
Krasnodar was founded in 1794 as Yekaterinodar. The oldest part of the city is Old Downtown Krasnodar, which consists of many historic buildings, several from the 19th century. Buildings have been preserved, restored or reconstructed, and the district is now a substantial tourist attraction.
Shukhov’s Hyperboloid Tower near Krasnodar’s Circus is a unique architectural steel lattice hyperboloid tower built by the Great Russian engineer and scientist Vladimir Grigorievich Shukhov in 1928. The city is a large cultural center of Russia. There are State Academic Drama Theater, Puppet Show Theater, State Circus, Philharmonic Society, a lot of parks, Botanic garden, aqua-park. Kuban Cossack chorus directed by Victor Zakharchenko is the pride of Krasnodar people.
EXHIBITION AND CONGRESS CENTER “EXPOGRAD YUG”

Address: 350005, Russia, Krasnodar, 1 Kongressnaya St.
Tel./fax: +7 (861) 992-28-85
E-mail: beu@expograd-yug.ru
www.expograd-yug.ru

Opened in: 2015

Hall space: 36,000 sq. m
Open air space: 16,000 sq. m
Number of pavilions: 4
Number of conference rooms: 5
Exhibitions per year: over 20

In September, 2015 the largest exhibition platform in the south of Russia of international standing – the exhibition and congress complex “Expograd Yug” started functioning in Krasnodar City.

Technical capabilities of the platform allow holding Russian and international exhibition and congress arrangements of practically any level and scale including those demanding open territory (for example, demonstrations of heavy and special equipment). ECC “Expograd Yug” is constructed in full compliance with standards of the Global Association of the Exhibition Industry (UFI).

The complex includes 4 indoor exhibition pavilions with a total area of 35 600 sq. m, 2 outdoor exhibition venues with a total area of 20 800 sq. m, 5 conference halls, 7 meeting rooms of various capacity and a car park with 2 400 places, and also a food court, a restaurant and a cafe. The total construction area makes more than 80 000 sq. m.

ECC “Expograd Yug” is fitted with all necessary technical equipment for holding exhibitions, congresses and cultural events of the international level.

In close proximity to “Expograd Yug” exhibition complex there will be a comfortable hotel Four Points by Sheraton constructed, which will have 200 rooms (start-up is appointed 2017).

The exhibition and congress complex “Expograd Yug” is ready to hold in its territory events of any format and scale. We are open for cooperation with you and we offer you to consider the possibility of carrying out exhibition and congress actions in the capital of Krasnodar Region that became the leader of rating of investment appeal of regions of the Russian Federation in 2014.
Major events hosted by the exhibition centre:
WORLDSKILLS
UGAGRO
KUBAN FAIR
FAIR HOUSING
YUGBUILD + SECURICA + INDECOR

KRASNOYARSK

General Information
Krasnoyarsk is the third largest city in Siberia, located on Yenisei river. Krasnoyarsk is the second largest federal subject after the Sakha Republic, Russia's largest Territory and the third largest subnational governing body by area in the world.

Region’s area – 2,366.8 thousand sq. km
Region’s population – 2,858.8 thousand people

Economic Development
Industrial production is the basis of the Krasnoyarsk Territory’s economy. The material production is dominated by industry, agriculture and construction. Over 95% of the cities, a majority of the industrial enterprises, and all of the agriculture are concentrated in the south of the Territory. The Territory is among the richest of Russia’s regions in natural resources.

Key industries: non-ferrous metals, energy, machine engineering, metals processing.
2014 GRP – 1,423.2 bln. RUB
Foreign trade turnover (9 months of 2015) – 6.2 bln. US dollars
   Export – 5.1 bln. US dollars
   Import – 1.1 bln. US dollars
Investments in fixed assets in 2014 – 344.5 bln. RUB

Exhibition Activity
There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Krasnoyarsk. In 2015, this company organized 33 exhibitions with total net space of 42,191 sq. m. 3,926 exhibitors took part in these exhibitions. There were more than 340 thousand visitors to the events.

Climate
The climate is strongly continental with big variations of temperature during one year. The average temperature of January is −36 °C in the north and −18 °C in the south. The average temperature of July is 10 °C in the north and 20 °C in the south.

Transportation
Krasnoyarsk is an important junction on the Trans-Siberian Railway. There are also highway, water and air connections with other regions. There are also 26 airports including a large international airport Emelyanovo in Krasnoyarsk.

Tourism and Sightseeing
The city was founded in July 1628 as a Russian border fort.
There is a number of historical buildings in Krasnoyarsk, the oldest of them is the Intercession Cathedral.
The most popular place of attraction for tourists visiting Krasnoyarsk is the huge national nature reserve Stolby (“pillars”), which covers an area of 470 sq. km with numerous giant granite rocks formations up to 100 m high, many of very extraordinary shapes. Stolby is also a major rock climbing location.
Other popular showplaces include the Krasnoyarsk Hydroelectric Power Station dam (it is pictured on Russian ten-ruble note), the Karaulnaya Gora hill with the Paraskeva Pyatnitsa Chapel, museums, theaters, etc.
There are several museums in Krasnoyarsk, 45 museums in the region, with total number of about one million objects stored there.
Krasnoyarsk zoo is also a major attraction for residents and tourists.
Krasnoyarsk Fair Exhibition Company was founded in 1992, and quickly gained the status of one of the major exhibition companies in Siberia and the Far East. It contributes greatly to the development and promotion of the exhibition business in general. Annually we can trace the growth of interest to the exhibition projects on behalf of visitors and exhibitors. More than 2,600,000 people have visited the company exhibitions during 23 years; over 60,000 companies have participated as exhibitors.

Since 2007 Krasnoyarsk Fair has been the major operator of all events in the premises of the SIBERIA International Exhibition and Business Center. It is a modern complex built according to the world standards. The total area of Siberia International Exhibition and Business Center comprises 52,000 sq. m; this enables to provide on the territory of the complex a large spectrum of services required for event management. To the services of the guests there are exhibition pavilions and grounds, conference halls, a hotel and a restaurant. In 2014 a new congress center Grand Hall Siberia which is unique for the Territory of the Urals, Siberia and the Far East, was established. It includes a gala hall, 6 modern conference halls, a large hall for 1,716 seats suitable for organization of large-scale concerts and congress events.

The Krasnoyarsk Fair events calendar includes such congress and exhibition projects as Construction and Architecture; Modern Security Systems – Antiterror; itCOM – Information Technologies. Telecommunications; Siberian Energy Forum; Siberian Dental Forum; Siberian Entrepreneurship Forum; Metal Work and Welding show; Krasnoyarsk Trade Forum; Agricultural Forum in Siberia, etc. It should be mentioned that the co-organizer of two specialized exhibitions ClimatAquaTex and ExpoDrev is Deutsche Messe AG, one of the largest world exhibition companies from Hannover. The Krasnoyarsk Fair events calendar includes about 60 events.

In addition to that, the company develops one more direction – organization of visits for foreign guests to Krasnoyarsk and visits of Krasnoyarsk Region business delegations abroad.

Moreover, the company takes part as a co-organizer and technical operator in Russian, regional and city events such as Krasnoyarsk Economic Forum, Non-Ferrous Metals congress, Krasnoyarsk Book Culture Fair, Crafts Fair, various regional contests.
Major events hosted by the exhibition centre:
Krasnoyarsk Economic Forum
Krasnoyarsk Book Culture Fair
Expodrev Woodworking Trade Show
Climat AquaTEX
Siberian Energy Forum
Architecture and Construction Forum of Siberia
Siberian Dental Forum
Siberian Breading Forum
Nonferrous Metals of Siberia Congress
Krasnoyarsk

NIZHNY NOVGOROD

General Information
Nizhny Novgorod Region is the economic and cultural center of the vast Volga-Vyatka economic region, administrative center of Nizhny Novgorod Region and Volga Federal District and is located in the central European part of Russia.

Region’s area – 76.6 thousand sq. km
Region’s population – 3,270.2 thousand people

Economic Development
The Region’s advantageous geographical location, well-developed transport infrastructure, industrial and scientific potential, and highly qualified workforce signify strong economic and social potentials.

Key industries: automobile building, aircraft building, ship building, transport and logistics, food industry, ferrous metallurgy, scientific complex, chemical and oil-refining industry.

2014 GRP – 1,018.4 bln. RUB
Foreign trade turnover in the first 9 months of 2015 – 4.0 bln. US dollars
  Export – 2.4 bln. US dollars
  Import – 1.6 bln. US dollars
Investments in fixed assets in 2014 – 286.6 bln. RUB

Exhibition Activity
There are 3 exhibition organizers – RUEF members that carry out exhibition activity in Nizhny Novgorod. In 2015, these companies organized 34 exhibitions with total net space of 48,198 sq. m. 6,060 exhibitors took part in these exhibitions. There were more than 320 thousand visitors to the events.

Climate
The climate in the region is continental, and it is similar to the climate in Moscow, although colder in winter, which lasts from late November until late March with a permanent snow cover.

Transportation
Trains are probably the best and the most convenient way to get to Nizhny Novgorod. Most of the Trans-Siberian trains (including the legendary train No. 1 between Moscow and Vladivostok and the train from Moscow to Beijing) pass via Nizhny Novgorod. The international airport of Nizhny Novgorod (GOJ) is situated in Strigino district what is about 30–40 minutes by taxi from city centre.

Tourism and Sightseeing
Nizhny Novgorod is the fourth largest city of the Russian Federation.
Much of the city downtown is built in the Russian Revival and Stalin Empire styles. The dominating feature of the city skyline is the grand Kremlin (1500–1511), with its red-brick towers.
There are more than six hundred unique historic, architectural, and cultural monuments in the city. UNESCO included Nizhny Novgorod in the list of 100 cities of the world which are of great historical and cultural value.
There are eight theatres, five concert halls, eight museums (sixteen including branches), and seven parks.
All-Russia Closed JSC “Nizhegorodskaya Yarmarka” is one of the biggest exhibition centers in Russia. Every year more than 50 exhibition and convention events of the All-Russia Closed JSC Nizhegorodskaya Yarmarka make site for presentation of innovative projects, new scientific developments, place for discussion of issues being the most topical for various industries, public health and education, information technologies and banking sphere, agriculture, architecture and art, ecology etc.

Nizhegorodskaya Yarmarka enjoys up-to-date infrastructure required for organization and holding of world level exhibitions, congresses and conferences. Its vast operation area (55,000 sq. m) accommodates six exhibition halls with total area of 12,000 sq. m and 23,000 sq. m of outdoor exhibition space. The number of companies participating in Nizhegorodskaya Yarmarka’s exhibition events is about 5,000 and the number of visitors reaches 300,000. The subjects of specialized exhibition events are selected based on the main lines of social and economic development of the Russian Federation and in accordance with RF National Projects.

Nizhegorodskaya Yarmarka is the only Exhibition Center in Russia participating in the UFI in two nominations: World Class Exhibition Center and Organizer of Exhibitions Satisfying the Requirements of the World Primary Standards, so Nizhegorodskaya Yarmarka is the only Russian exhibition company having two votes in the UFI. The membership in UFI has considerably raised the status of Nizhegorodskaya Yarmarka exhibition and congress events in the world.

The most important and representative projects of Nizhegorodskaya Yarmarka that can be considered as its brand names are five Forums: International Business Summit, International Scientific and Industrial Forum “Great Rivers”, Russian Architecture and Construction Forum, All-Russia IT Forum, All-Russia Banking Forum.

Nizhegorodskaya Yarmarka works efficiently in the field of international exhibition activities. It has held several national exhibitions of the United Kingdom, national expositions of Finland, Bulgaria, India, Italy, Germany, France, and some African countries. Expositions organized by Nizhegorodskaya Yarmarka in London, Vienna, Hanover, Rome, Leipzig, Prague, Budapest, Shanghai, Beijing, Brno, Paris, Brussels, Berlin and other cities of the world enjoyed a high appraisal of world business society and gained essential economical and political success.
Major events hosted by the exhibition centre:
International Business Summit (including the exhibition of scientific, industrial and innovation potential “Future of Russia”)
International Scientific and Industrial Forum “Great Rivers”
Russian Architecture and Construction Forum
International IT Forum
All-Russia Banking Forum

Hotel “Yarmarochnaya”
The hotel is 200 m away from the world famous Nizhny Novgorod Fair. It is a perfect place for people who are going to visit showgrounds during forums and exhibitions. Favorable location – a short distance away from city center, easy transport accessibility, close vicinity to the railway station and the bus terminal makes it a convenient guesthouse for business visitors and tourists.

Yarmarochnaya is a small and cozy hotel, conveniently located near the historical center of Nizhny Novgorod and the main exhibition complex of Nizhny Novgorod Fair. Several points of interest and architectural monuments are located nearby: Spassky (Old Fair) cathedral, alongside with the Main Fair House are the only buildings that remained pristine since the time of prosperity of splendid Nizhny Novgorod Fair. Another remarkable sight is Alexander Nevsky (New Fair) cathedral, currently serving as the metropolitan church of Nizhny Novgorod.

This small and comfy hotel, located in a quiet borough of Nizhny Novgorod, has just 10 suites. Hotel’s favorable position near transport junction enables you to reach Strigino international airport in 25 minutes, railway station – in 5 minutes, river harbor – in 5 minutes, city center – in 10 minutes.

Free services:
- Taxi booking
- Registration of foreign citizens
- Hairdryer, electric kettle, radiator, iron, ironing board
- First aid kit
- Tea and coffee throughout the day
- Accommodation with pets
- High-speed Wi-Fi connection
NOVOKUZNETSK

General Information
Novokuznetsk is a major industrial centre in the south of Kemerovo Region. It is the city with the largest number of residents and also the oldest city in the Kemerovo Region. The city is one of the major steel and coal-mining centers in the country.

Region’s area – 95.7 thousand sq. km
Region’s population – 2,725.0 thousand people

Economic Development
Kemerovo Region is one of the most dynamically developing regions of Russia. It has about a third of the major manufacturing facilities in western Siberia.

Key industries: non-ferrous metals, forestry, machine engineering, energy.
2014 GRP – 747.4 bln. RUB
Foreign trade turnover (9 months of 2015) – 8.2 bln. US dollars
  Export – 7.8 bln. US dollars
  Import – 0.4 bln. US dollars
Investments in fixed assets in 2014 – 239.7 bln. RUB

Exhibition Activity
There are 2 exhibition organizers – RUEF members that carry out exhibition activity in Novokuznetsk. In 2015, these companies organized 18 exhibitions with total net space of 18,305 sq. m. 1,135 exhibitors took part in these exhibitions. There were more than 50 thousand visitors to the events.

Climate
The climate is continental with long winters and short summers. The average January temperature is –20 °C, and the average summer temperature is +20 °C, although temperatures can range from –40 to +40 °C.

Transportation
The region has a dense railway network, including the Trans-Siberian Railway, which passes through it. There is an airport near Kemerovo.

Tourism and Sightseeing
There is a great emphasis put on preserving and developing culture in Kemerovo Region. There are 35 museums, more than 1,500 historical and cultural monuments, 27 of which are of federal significance (14 archaeological, 6 historical, 5 architectural, and 2 artistic monuments), 18 parks of culture and rest. Novokuznetsk museum of local study is the first museum in the area where flora and fauna are exposed, lectures on history, ethnography and archaeology are held as well as on revolution and civil war, on modern Novokuznetsk.
Novokuznetsk F. M. Dostoyevsky literary museum possesses a large library, a collection of photographs, playbills, theater programs connected with the writer’s works.
Memorial museum of Kuznetsk metallurgists’ glory possesses over 2,500 exhibits.
Historical and architectural museum “Kuznetsk fortress” exhibits Kuznetsk at the end of the 19th – early 20th centuries. Excursions are held round the old fortress.
There are four theaters in the city: two of them are the oldest theater groups of Kuzbass – Novokuznetsk Drama Theatre and Novokuznetsk Puppet Theatre.
KUZBASS FAIR, CJSC

Address: 51 Avtotransportnaya St.,
Novokuznetsk, 654038, Russia
Tel.: +7 (3843) 32-11-95
Fax: +7 (3843) 32-24-30
E-mail: info@kuzbass-fair.ru
www.kuzbass-fair.ru

Opened in: 1992

Hall space: 26,762 sq. m
Open air space: 39,446 sq. m
Number of pavilions: 4
Number of conference rooms: 4
Exhibitions per year: 11

Since the date of the foundation of the exhibition company – the year of 1991 – and over the total period of its activity, more than 40 thousand companies from the Russian Federation and foreign counties have been the exhibits of “Kuzbass Fair”. Within this period, more than 820 thousand experts from different fields of industry, representatives of scientific societies, public organizations and associations have visited Novokuznetsk.

Each year, CJSC “Kuzbass Fair” conducts the exhibitions on more than 40 subjects, changing its conceptual orientation depending upon the social and economic needs of the region.

“Kuzbass Fair” has purchased its own territory of 26,000 sq. m of indoor area and 66,208 sq. m of total area in 2011. As per its scale and technical abilities, it perfectly fits the conduction of exhibitions-fairs of different format and subjects.

Today the following is put into operation: stationary pavilions № 1, 2, 4 and 6 of the area (6,048, 4,200, 2,500 and 1,200 sq. m), and special park of “moving” pavilions. Also there are four conference halls, presentation hall, one stationary cafe, open type and indoor parking places for 512 vehicles. A Wi-Fi service is available throughout the territory of the exhibition company. There are road signs installed from the entrance to the city up to the exhibition complex.

The modern exhibition complex “Kuzbass Fair” is an excellent site not only for the conduction of the subject exhibitions and demonstration of the large-size machinery, but also for the organization of the congress and business arrangements, different festivals, concerts, shows, tournaments etc.
Major events hosted by the exhibition centre:
Coal of Russia and Mining
Siberian Building Forum

NOVOSIBIRSK

General Information
Novosibirsk is the administrative center and capital of Novosibirsk Oblast and Siberian Federal District of Russia. It is the third city of Russia by population after Moscow and St. Petersburg. Novosibirsk is the business, cultural, industrial, scientific, trade and transport center of Siberia.

Region’s area – 177.8 thousand sq.km
Region’s population – 2,746.8 thousand people

Economic Development
Novosibirsk is a large industrial center. The industrial complex consists of more than 200 large and average sized industrial enterprises. Novosibirsk is home for Russian Academy of Sciences Siberian division located like almost all other higher education institutes in separate suburb named Akademgorodok (meaning “The Town of Academy”).

Key industries: machine building, electric power generating, metallurgy and food.
2014 GRP – 895.3 bln. RUB
Foreign trade turnover (9 months of 2015) – 2.2 bln. US dollars
   Export – 1.3 bln. US dollars
   Import – 0.9 bln. US dollars
Investments in fixed assets in 2014 – 180.0 bln. RUB

Exhibition Activity
There are 2 exhibition organizers – RUEF members that carry out exhibition activity in Novosibirsk. In 2015, these companies organized 40 exhibitions with total net space of 62,713 sq. m. 2,746 exhibitors took part in these exhibitions. There were more than 154 thousand visitors to the events.

Climate
The climate is sharply continental, with severely cold and snowy winters, and hot and dry summers. Temperatures in summer range from 20 °C to 25 °C, in winter –18 °C to –20 °C, but can reach from –40 °C to –50 °C in winter and 35 – 40 °C in summer.

Transportation
The city is served by Novosibirsk Tolmachevo Airport with regular flights to Europe and Asia as well as to other Russian cities. The Trans-Siberian Railway also crosses Novosibirsk Region.

Tourism and Sightseeing
Novosibirsk was founded in 1903.
Among cultural attractions of Novosibirsk are theaters, among which the Opera House is considered the most famous and which became one of the symbols of Novosibirsk.
Another city symbol and place of pilgrimage of tourists is Chapel of St. Nikolay, which was built in 1914 to celebrate 300 years of Romanov’s royal dynasty.
Among the main attractions of the city is Novosibirsk Zoo. It is known not only as a place of interest for tourists but as an important scientific institution. There are about four thousands of animal species living in the zoo.
One of the main merits of Novosibirsk Region for tourists is its nature. The diversity of species and landscapes is really unique.
NOVOSIBIRSK EXPOCENTRE INTERNATIONAL EXHIBITION COMPLEX

Address: 104 Stantsionnaya St., Novosibirsk, 633102, Russia

www.novosibexpo.ru

Opened in: 2012

Hall space: 14,400 sq. m
Open air space: 12,600 sq. m
Number of pavilions: 2
Number of conference rooms: 7
Events per year: 131 (2015)

The Novosibirsk Expocentre International Exhibition Complex is one of the largest exhibition complexes in the Asian part of Russia. Its location at the intersection of key highways, proximity to Tolmachevo Airport, and a convenient business infrastructure of Novosibirsk turn the Novosibirsk Expocentre into the main business hub of the Siberian Federal District. The territory of the District accounts for 30% of the Russian Federation area. And its population is over 19 million people.

The Novosibirsk Expocentre International Exhibition Complex complies with international standards of organizing and conducting events of different levels: international summits and congresses, exhibitions and fairs, conferences and seminars, concerts, shows, and sports events. The events held at the complex are annually attended by over 500 thousand people from different places of Russia and the world. List of attendees includes business owners, top managers, representatives of major national and international companies, scientists, experts, and specialists working in various spheres.

The Novosibirsk Expocentre International Exhibition Complex became a venue that hosts some of the largest exhibitions held at the territory of Siberia and the Far East. Total area of two exhibitions halls of the complex equals 14,400 sq. m, area of the equipped outdoor area is 12,600 sq. m. The complex features modern engineering facilities. The used technical solutions allow connecting to any facility type with the provision of necessary output power at any place of the exhibition halls.

Conference halls of the Novosibirsk Expocentre International Exhibition Complex are equipped with modern technical systems for delivering speeches, demonstrating presentations, and organizing video conferences as well as hosting international events where simultaneous translation to several languages is required.

In order to create comfortable working conditions the Novosibirsk Expocentre International Exhibition Complex offers its visitors, exponents, and event organizers a wide range of services including design and construction of stands, connection of the equipment to engineering facilities, equipment adjustment, and catering services during the events.
Major events hosted by the exhibition centre:
International construction and interior exhibition “SibBuild”
International exhibition of machine engineering and metalwork “Mashex Siberia”
International forum of technological development “Technoprom”
All-Russian conference of web developers “CodeFest”
International agricultural exhibition “AgroSib/AgroExpoSiberia”

OMSK

General Information
Central City of Omsk Region. It is located in southwestern Siberia. Omsk stretches along the banks of the north-flowing Irtysh at its confluence with the smaller Om River.

Region’s area – 141.1 thousand sq. km
Region’s population – 1,978.2 thousand people

Economic Development
The economy of Omsk Region is heavily industrial, with well developed, and growing, service and financial sectors. Agriculture represents a smaller, but still significant, portion of the economy.

Key industries: aerospace, military-industrial complex, food processing industry, chemical and petrochemical industry, electric power.

2014 GRP – 598.9 bln. RUB
Foreign trade turnover in the first 9 months of 2015 – 822.6 mln. US dollars
Export – 573.8 mln. US dollars
Import – 248.8 mln. US dollars
Investments in fixed assets in 2014 – 105.8 bln. RUB

Exhibition Activity
There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Omsk. In 2015, this company organized 12 exhibitions with total net space of 24,064 sq. m. 635 exhibitors took part in these exhibitions. There almost 340 thousand visitors to the events.

Climate
The region has a moderately cold continental climate with long, severe winters and short summers. The average January temperature is about -20°C, and the average July temperature is +20°C.

Transportation
Situated on the banks of the north-flowing Irtysh, at its confluence with the Om River, on both branches of the Trans-Siberian railway, it is the cross-junction of highways in the central part of Russian Federation. Scheduled and charter flights link Omsk Tsentralny Airport with multiple domestic and international destinations.

Tourism and Sightseeing
Omsk was founded in 1627, and became a fortress at the beginning of the 18th century. Unfortunately, many historical buildings of Omsk were destroyed during the Soviet times. One of few architectural monuments which have remained from an old history is the Tobolsk Gate to the Omsk Fortress. It is important to visit the Omsk A. M. Vrubel Painting Museum: one work of Vrubel, unique beyond the Ural Mountains, is kept here, as well as a rich collection of icons, Russian pictures of the 18–20th centuries, works of western painters, a collection of works of Russian avant-gard masters. Out in the Region, one should visit the archeological monument Tatarsky Uval, near the Okunevo village of Muromtsevsky District. 7.5% of the Region is occupied with wildlife and nature sanctuaries. One of the major reserves is that of Bairovsky. Omsk nature reserve called Ptichya Gavan (Bird’s Harbour) is considered unique, being the only reserve within city boundaries. The Omsk Region is famous for its mineral waters which are prescribed against a variety of diseases.
The main activities of JSC “Agency of investments and development of the Omsk region” are investment activity, exhibition, fair and congress activity, foreign trade.

SC “Development and Investment Agency of Omsk Region” since 2008 carries out professional activities in the field of organization of the exhibition events, actively cooperates with Federal and regional structures of state power and professional organizers of business events.

Main activities:
- Organization of the exhibitions in Omsk on the basis of the regional Expocentre
- Organization of the business events in the Congress Hall of the regional Expocentre
- Accommodation of the guest exhibitions and the congress events
- Organization of the regional exhibitions in Russian and foreign exhibitions

The Agency has the modern exhibition space equipped to meet the latest trends of the exhibition industry. Exhibition designer “Sodem Systems” allows to build up the exhibitions of various themes, to install meeting and negotiations rooms with the number of seats from 20 to 30 persons.

Optimal transport structure and the convenient location of the Regional Expocentre allow easy access to all of the events held in the exhibition center, from any point of the city, the country and the world, as well as to quickly deliver the necessary equipment, the exhibition samples and equipment.

“VTTA” – the international exhibition of high technologies and equipment for the Arctic, Siberia and the Far East conducted by the Government of the Omsk region with the active support of the Russian geographical society, Association of polar explorers, MASS. In its framework accommodates the expositions of Russian regions, demonstrating scientific developments, technologies and products, including import substituting ones. In addition, Agency annually participates as co-organizer and a technical operator at the Federal, provincial and municipal projects.

In 2015, held 100 events and 78 business events. 5 organized outreach activities in other regions. For exhibitors and visitors within walking distance – public transport stop “Expocentre”.

SAMARA

General Information
Samara is one of the largest cities in Russia. It is situated in the southeastern part of European Russia, at the confluence of the Volga and Samara Rivers. During Soviet times, Samara was a city closed to foreigners. Today it plays an important role as large economic and cultural center of Russia.

Region’s area – 53.6 thousand sq. km
Region’s population – 3,212.7 thousand people

Economic Development
Samara Region is one of the leading regions of Russia with a high pace of social-economical development. The region is one of the largest industrial centers of the country and has a considerable research and development potential, a developed innovational infrastructure which altogether provide favorable conditions for innovational development.

Key industries: machine engineering and metal processing, chemicals and petrochemicals, food and beverages, energy, non-ferrous metals, agriculture.
2014 GRP – 1,152.0 bln. RUB
Foreign trade turnover in the first 9 months of 2015 – 7.0 bln. US dollars
  Export – 5.2 bln. US dollars
  Import – 1.8 bln. US dollars
Investments in fixed assets in 2014 – 300.3 bln. RUB

Exhibition Activity
There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Samara. In 2015, this company organized 17 exhibitions with total net space of 21,759 sq. m. 1,580 exhibitors took part in these exhibitions. There were 160 thousand visitors to the events.

Climate
Samara Region has a temperate continental climate, but the summers are much warmer and the winters harsher than in western Russia. The average annual temperature is +3.8 °C, with average July temperatures of +20.7 °C and average January temperatures of −13.8 °C.

Transportation
Samara is a major transport hub. The Kurumoch International Airport handles flights throughout Russia, Central Asia, and Europe. There are rail links to Moscow and other major Russian cities. Samara is a major river port.

Tourism and Sightseeing
Founded in the year 1586 as supporting fortress, Samara became the capital of the province in 1851. Nowadays the tourist infrastructure in the area is well-developed: there are more than 100 hotels and more than 50 health centers, 122 recreation centers, 74 children camps. Presence of natural monuments (580 sites), historical monuments (3636 sites), religious sites, as well as large cultural and recreational opportunities in the area are good prerequisites for creating popular tourist programs.
Samara Region has considerable cultural potential, with 4 theaters, 12 museums and their branches, a philharmonic, a state symphony orchestra, and one of the finest art galleries in the Volga region. Among the main museums of Samara are: Samara Arts Museum, Samara Local Lore Museum, Aleksey Tolstoy House-Museum, Stalin's Bunker, Lenin's House-Museum.
EXPO-VOLGA EXHIBITION COMPLEX

Address: 23a Michurina St., Samara, 443110, Russia
Tel./fax: +7 (846) 207-11-22
E-mail: ev@expo-volga.ru
www.expo-volga.ru

Opened in: 1986/2002

Hall space: 5,024 sq. m
Open air space: 10,360 sq. m
Number of pavilions: 2
Number of conference rooms: 4
Exhibitions per year: 21

For 30 years Expo-Volga, EC, has been the largest exhibition operator in Samara Region. During its work, Expo-Volga has held more than thousand regional and international exhibitions, forums, and congresses.

Having its own exhibition complex, the company holds more than 40 congress and exhibition events a year. Developed infrastructure and broad technical capabilities of the complex allow the company to effectively conduct various business events of high international level.

Subjects of exhibitions held by Expo-Volga cover the most powerful and competitive regional clusters: automotive, petrochemical, tourist and recreational, and industries of transport and logistics, and construction technologies.

Cooperation with leading state universities of the region allows the company to hold scientific conferences, round tables and seminars for specialists covering the most topical issues of a particular industry.

Specializing in B2B exhibition projects, the company works closely with the regional government, Russian and foreign industry associations and offers a unique platform for cooperation between business and government.

Since 1995, the company is an active member of the Russian Union of Exhibitions and Fairs, one of the largest exhibition companies not only in Samara Region, but also in Russia. In 2011, Expo-Volga became a co-founder of the Swiss-Russian Industrial Business Club.

Today, the company portfolio includes exhibitions, which received high recognition. Thus, Power Engineering, Building Industry, and Industrial Show were included into the Russian exhibition rating; Building Industry, Samara Auto Show, Power Engineering and Industrial Show were assigned the RUEF mark; in 1999 for professional achievements, Expo-Volga was awarded the Arch of Europe for Quality.

The main driving force of the company is its team. Specialists of Expo-Volga distinguish themselves by high professionalism, creative thinking, and individual approach to each client.
Major events hosted by the exhibition centre:
Power Engineering
Industrial Show
Dental-Expo. Samara
Oil: Production and Chemistry

SARANSK

General Information
Saransk is a city in central European Russia and the capital of the Republic of Mordovia. It is located in the Volga basin at the confluence of the Saranka and Insar Rivers.

Region’s area – 26.1 thousand sq. km
Region’s population – 808.9 thousand people

Economic Development
Today the Republic of Mordovia is a region with developed industry as well as agriculture. The Republic supports machine engineering, food and beverages production, and processing enterprises, meanwhile the production and technical potential of the agricultural sector are improving, too.

Key industries: machine engineering, metal processing, food and beverages, energy chemicals, petrochemicals, pharmaceuticals, agriculture.
2014 GRP – 170.9 bln. RUB
Foreign trade turnover (9 months of 2015) – 170.1 mln. US dollars
  Export – 84.0 mln. US dollars
  Import – 86.1 mln. US dollars
Investments in fixed assets in 2014 – 55.3 bln. RUB

Exhibition Activity
There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Saransk. In 2015, this company organized 36 exhibitions with total net space of 20,491 sq. m. 1,645 exhibitors took part in these exhibitions. There were 184 thousand visitors to the events.

Climate
Climate is moderately continental. Average January temperature: – 11 °C; average July temperature: +19 °C.

Transportation
The republic has transportation links with almost all Russian regions. Saransk has a railway station (Kuibyshev railway) and an airport.

Tourism and Sightseeing
Saransk was founded in 1641 as a fortress. It is a cultural center of Finno-Ugric peoples. Nowadays it combines historical buildings, fascinating sport objects, crowded malls and cozy parks.
The architectural sites of Saransk are Ioann Bogoslov church, Tryohsvyatitelskaya church (second half of the 18th century).
There are many museums in the republic. The largest ones include the Mordovian Republican United Museum of Regional Studies and the Museum of Mordovian Culture in Saransk.
Historical monuments and museums and the distinctiveness of the Mordovian culture and region all favor the development of tourism in the city. The work of the great contemporary sculptor Stepan Erzya attracts visitors from around the world even today.
Saransk has several theaters, including the Dramatic Theater (founded in 1961), the State Puppet Theater of the Republic of Mordovia, and a Comedy theater.
Mordovexpocentre, LTD is one of the leading enterprises in organizing and holding exhibitions and congress fairs in the Volga Federal District, founded by the Chamber of Commerce and Industry of the Republic of Mordovia.

The enterprise works for more than 35 years, has four exhibition pavilions with total hall space of 4,100 sq. m and 4,000 sq. m of open air space.

Mordovexpocentre today is a modern enterprise of the exhibition business, satisfying the requirements of exhibitors and visitors and offering a wide range of services.

The enterprise has modern exhibition equipment, allowing the construction of stands of different configurations, two conference rooms for 70 and 40 seats, equipped with the media system for congress events, Wi-Fi, mini printing-office, radio node, guarded parking for 100 cars, café for 80 seats and VIP-hall. As required conference rooms for 400 seats and one-to-one venues are organized in the exhibition pavilions.

Territorially the Mordovexpocentre is located favorably within the city district Saransk with convenient logistics.

Thanks to the complete reconstruction of the fairgrounds in 2004, the exhibition and congress projects of the district (Volga Federal District) and the federal level are realized successfully today.

The sphere of activity of the Mordovexpocentre is:
- organization of international and interregional trade fairs and conventions;
- organization of collective expositions of enterprises of the Republic of Mordovia in international exhibitions in Russia and abroad;
- organization of congresses;
- general fitting, stand design;
- provision of advertising, printing and design services;
- provision of information, consultancy, commercial and intermediary services.
Major events hosted by the exhibition centre:
Agroforum
Builders of Russia on the Way Towards FIFA World Cup 2018™
Energy – and Resource Saving
Health and Beauty
ART-Salon

STAVROPOL

General Information
Stavropol is a city located in south-western Russia and is the administrative center of the Stavropol Territory, also the cultural, business and industrial center of the region. One of the largest cities in the North Caucasus Federal District.

Region’s area – 66.2 thousand sq. km
Region’s population – 2,799.5 thousand people

Economic Development
The basis of the regional economy is agriculture, process industry, recreation-tourist and transport sectors. Over 400 plants make up an economic base of present day Stavropol.

Key industries: energy, food and beverages, chemicals and petrochemicals, machine engineering and metals.
2014 GRP – 541.2 bln. RUB
Foreign trade turnover in the first 9 months of 2015 – 1.1 bln. US dollars
    Export – 0.7 bln. US dollars
    Import – 0.4 bln. US dollars

Investments in fixed assets in 2014 – 143.1 bln. RUB

Exhibition Activity
There is 1 exhibition organizer – RUEF member with a permanent seat in Stavropol that carries out exhibition activity in the city. In 2015, this company organized 6 exhibitions with total net space of 3,247 sq. m. 154 exhibitors took part in these exhibitions. There 12 thousand visitors to the events.

Climate
The climate is continental. The January average ranges from –4 °C to –10 °C (in mountains). Summers in flatlands are very warm with the July average +22 to +25 °C.

Transportation
The transportation sector includes all forms of modern long-distance and industrial transport. The city of Stavropol relies on air transport (Shpakovskoye airport), rail, and highway connections to other Russian cities.

Tourism and Sightseeing
The Stavropol Territory is famous for medical mineral springs. This area houses a world famous recreation-al complex which is called Kavkaz Mineral Waters. The cities of Pyatigorsk, Zheleznovodsk, Lermontov, Essentuki, Mineralnye Vody, and other centers known for their mineral springs are located in this area. Among architectural attractions of Stavropol the most distinguished are the “Krepostnaya Gorka” (Fortified Hill) memorial complex with a fortress wall fragment (1770–1780) that remains in the city center; a bust of A.V. Suvorov; a mosque; the Apostle Andrew Cathedral Church; the Assumption of the Blessed Virgin Cathedral (XIX century); a building of a former Gostiny Dvor (Trade center); an old office building; an old gymnasium (mid-XIX century) and a military hospital complex (1840s).

The Stavropol State Museum of History, Culture, Nature and Landscape Museum-Reserve has separate exhibition sectors of history and natural studies.

Another monument of Stavropol history is the “Tatarskoye gorodishche” (Tatar settlement) located between Stavropol and Tatarka village. This is the largest archaeological attraction of the Pre-Caucasian region that by miracle managed to stay intact inside a relic forest and among city, village and summer houses.

Opened in: 1993

Hall space: 2,700 sq. m
Open air space: 2,100 sq. m
Number of pavilions: 1
Number of conference rooms: 1
Exhibitions per year: 36

The permanent exhibition organization OJSC “Tyumen International Fair” was established in August 31, 1993 by the decision of Intergovernmental Council on Oil and Gas of the CIS member countries.

Factors that made it possible to establish a specialized exhibition organization in Tyumen are as follows: Tyumen region is the major petroleum artery of Russia; it represents a market with a large consumer’s demand, and the capital of Tyumen region is an appropriate gathering place of manufacturers and consumers of energy complex products.

Therefore, the first and major exhibitions of the Tyumen Fair became “Oil and Gas. Fuel & Energy Complex” and “Construction and Architecture. Woodworking”. Further on the calendar was extended by the exhibitions “Electronic Engineering for Fuel and Energy Complex”, “Medicine and Healthcare”, “Homeware”, “Tyumen Agricultural Fair”, etc.

The Tyumen Fair exhibited the products of Tyumen commodity producers at specialized exhibitions in Berlin, London, Harbin, Astana, Moscow, Nizhny Novgorod, Chelyabinsk, Vologda, Tobolsk, Novy Urengoy, Noyabrsk, Surgut and other cities and regions.

For the year to date nearly 600 exhibitions have been held. Companies from Russia, Finland, Rumania, the USA, Great Britain, Germany, Austria, Spain, Portugal, Belgium, Slovenia, China and other countries took part in these exhibitions. Over 1 million people visited the exhibitions, including the authorized representative of the President, heads of municipal formations of Tyumen and Tyumen region, General Consuls of the USA and Great Britain, delegations from China, parliamentary group from France, chiefs of governmental departments of Finland, representatives of the Ministries of the Russian Federation. Among the guests of the Fair there are top managers of oil and gas companies, directors of banks and industry associations, key specialists and research workers.

Owing to the efforts of the Tyumen Fair, under support of the Tyumen region administration there is an efficient exhibition industry in Tyumen city. Currently exhibitions held by OJSC “Tyumen Fair”, embrace any directions and trends, being of interest to Tyumen region: production and fuel refinery, power engineering, provision of gas supply, industrial and civil engineering, road construction, mechanical engineering, woodworking, medicine, information technologies, agriculture, light industry, etc.
Major events hosted by the exhibition centre:
Construction and Architecture
Oil and Gas. Fuel and Energy Complex
Art Salon. National Crafts
